Adelaide Direct Stationers (ADS) is pleased to announce another successful tender.

ADS has been tasked with supplying IT consumables to a Defence Housing Australia (DHA) site in South Australia.

Defence Housing Australia provides housing and related services to members of the Australian Defence Force (ADF) and their families.

By selecting Adelaide Direct Stationers, DHA is supporting the South Australian economy, for it enables ADS to invest back into South Australia through employment and infrastructure.

"Adelaide Direct Stationers is very proud to support the Commonwealth Government in South Australia. The Commonwealth Government has a huge footprint in South Australia in Defence, and by DHA supporting a South Australian family-owned company like ADS, it underlines the Commonwealth Government's priority to strengthen economic development in South Australia." - Tim Whittaker, Managing Director & Owner, Adelaide Direct Stationers.
